## Google SketchUp Pro

*SketchUp is 3D for Everyone*

Google SketchUp is software that you can use to create, modify and share 3D models. It's easier to learn than other 3D modeling programs, which is why so many people are already using it. We designed SketchUp's simplified toolset, guided drawing system and clean look-and-feel to help you concentrate on two things: getting your work done as efficiently as possible, and having fun while you're doing it.

**You can choose from two versions**

**our software.** Google SketchUp is free for anyone, and allows you to build, view and edit 3D models. Google SketchUp Pro adds the ability to share your data with other software, get email technical support, and create professional presentations—both print and digital—from your models.

For more info please log onto [www.sketchup.com](http://www.sketchup.com). **For purchases please contact us at MLST 2143 0018**

### SU PODIUM - PHOTO-REALISTIC RENDERING FOR SKETCHUP

You can make TRUE photo-realistic rendering of your SketchUp model without the pain and frustration of learning a complex program. Podium runs completely inside SketchUp from start to finish. It uses SketchUp features such as textures, background colors, groups and shadows to achieve impressive results. Podium is intuitive to

SketchUp users. Plus, its simple interface cuts the learning curve to minutes instead of days. Make an impression without the pain.

MLST is currently running a promotion for SU Podium at RM 599.00

### ZBrush 3.1

“ZBrush is a revolutionary software package that enables digital artists to enhance images and objects using a set of unique brushes and sculpting tools”

GameDev.net reviews ZBrush 3.1.

The TAB 3.0 SP1 Available - Student, Standard and Pro Version

**The TAB 3.0** gives animators more tools to draw and animate, new features to add power to animations, improvements for most of the features already available to speed up the production pipeline.

**The TAB Student** is the ideal software for creating in a few steps, but with amazing results, your own cartoons.

**The TAB 3.0 Pro** offers, in addition to the TAB standard tools, a bunch of special features developed specifically for professional users.

**TabPro 3.0 2D Animation Seminar**

MLST, TabCo and UITM will be hosting the above at Universiti Teknologi Mara Institute Kepimpinan dan Pengurusan Kualiti (ILQAM), Tingkat 5, Bangunan PTAR II, Shah Alam.

AUTODESK 3DS MAX

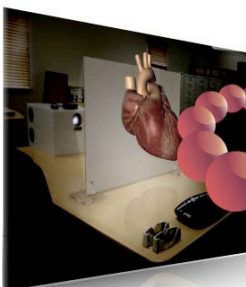

Create rich and complex design visualisation. Generate realistic characters for a top-selling game. Bring 3D effects to the big screen. Autodesk® 3ds Max® 2008 3D modeling, animation and rendering software helps **design visualisation professionals, game developers and visual effects artists** maximise their productivity by streamlining the process of working with complex scenes.

For more info on the new features, please log onto <http://www.autodesk.com>. For purchases please contact MLST @ 2143 0018

**EXPERIENCE ANATOMY IN A WHOLE  
NEW DIMENSION**

**Don't miss the year's most anticipated 3D VR systems launch festival !**

- 1. Quality is vital.
- 2. Interactivity is essential!
- 3. Visuals must be believable and realistic!

**Exclusively organized for  
Doctors, Medical Professionals,  
Students & University officials.  
on January 15th & 16th  
Call us for more info**

MLST is now the Distributor for Cyber-Anatomy products in Malaysia. The Cyber-Anatomy VR™ system was originally created for doctors in countries where, due to religious beliefs and customs, cadavers are not available. Today it transcends global requirements.

By providing a realistic and immersive environment for virtual dissection and exploration of anatomy, teachers and doctors are able to advance their students' core curriculum and understanding of the Human Body.
